3. <u>Tobacco and SmokeFree Campus Policy</u>

Ms. Marion Fedrick, Vice Chancellor for Human Resources, will present the Tobacco and Smoke-Free Campus Policy, for discussion.

Background

The University System of Georgia is committed to providing a healthy, comfortable, and productive learning and working environment for its students, faculty, staff, and visitors. With the vast knowledge accumulated within our leading research, comprehensive and state colleges and universites we understand the impact of tobacco and smoke related illnesses on our campuses as well as the communities that surround us. We are dedicated to being an active partner in the safety, health and welfare of all who matriculate, teach, work and visit our campuses. In accordance with that commitment, we are establishing a Tobacco and from campus Policy effective 1, 2014.

The use of tobacco products is the leading cause of avoidable death. Studies have shown that tobacco use has adverse effects among tobacco users and non-users alike including respiratory disorders, heart disease and various forms of cancer with a higher mortality and morbidity rate. The University System of Georgia recognizes the serious health implications of both direct use of tobacco products and indirect exposure to the use of tobacco products. It is with this knowledge that we recognize our responsibility to promote the healthbeineth-and safety of our students, faculty, staff and visitors by implementing a tobacco and **freekee**mpus policy.

Proposed Policy

The USG prohibits the use of all forms of tobacco products on property owned, leased, rented or otherwise in the possession of or by the USG or its affiliates. For the purposes of this policy "Tobacco Products" include cigarettes, cigars, pipes, all forms of smokeless tobacco, clove cigarettes and any other smoking devices that use tobacco such as hookahs or simulate the use of tobacco such as electronic cigarettes.

This policy prohibits any advertisingsale, or free sampling of tobacco products on USG properties unless specificallytased otherwise. This includes, but is not limited to, all areas indoors and outdoors, buildings and parking lots owned, leased or rented or otherwise in the possession of or by the USG or its affiliates. The use of tobacco products is prohibited in al vehicles – private or public vehicles - located on USG proprieties.

This policy applies to all persons who enter the areas described above, including but not limited to students, faculty, staff, contractors and subcontractors, employees, spectators, and visitors. All events hosted by a USG entity shall be tobacco-free. All events hosted by outside groups on behalf of the USG shall also be tobactore.
