1. Update on GME Expansion Activities at St. Mary's Health System

Drs. Bruce Middendorf and Shelley Nuss of the St. Mary's Health System will provide the committee with a detailed update on activities underway to establish an internal medicine residency program St.

2. Approve Resolution to Increase the Number of GME Funded Medicare Slots for Existing Teaching Hospitals

Background: During the last legislative session, house resolution 1722 approved the operations of an ad hoc study committee on medical education. The committee began meeting this fall and USG staff have been involved with these proceedings and have established ongoing dialog with leadership of this committee. Through the workings of this committee the role that existing caps on Medicare GME funds for existing teaching hospitals plays in stifling expansion of GME programs across the state has become clear. To address this, the committee intends to introduce a resolution for approval by both chambers of the legislature to urge Congress to increase the number of Medicare GME slots for existing teaching hospitals. Given the critical role the USG is currently playing in expanding GME in Georgia, committee leadership has asked that the USG approve its own urging resolution for Congress.
