Student's Financial Need FNA008

Category	Financial Aid / Student Financial Aid / Summary / FNA008
Description	An estimate of the annual cost of attending a postsecondary institution after deductions for the student's and family exp ected contributions are made.

Data Type	N
Length	10
Format	X
Collection Period	

Current		Following				
Mid-term	End of Term	Mid-term	End of Term	Annual	Monthly	Other
				Y		

Valid Values	
Business Practices	Financial need serves as an indicator of the amount of federal and other aid the student will need to cover his or her educational costs; financial aid awards are based on this amount. The amount recorded should reflect the amount needed for the academic (award year). These data are only available for students receiving federal financial aid. The federal government refers to this data element as Establisis data

The amount is used to determine financial need and is based on dependency status, family income and assets, family size, and the number of children enrolled in postsecondary institutions.

The Expected Family Contribution (EFC) is determined by the Federal Dept. of Education and calculated by use of a congressionally established methodology.

The actual amount of the EFC should be indicated in this field.

These data are only available for students receiving federal financial aid.

Validation Rules

Status: Active

Severity	Code	Description
Error	VFNA026	Expected Family Contribution must be between 0 and 999,999 if NOT NULL.
