15. Suggestions for program topics for future meetings

Continue data warehouse discussion should become a standing report like

Faculty workload warehouse discover training
graduate alumni survey strategies alternatives
Incorporate training programs such as the USG 123 production etc

16. Other Comments

Excellent conference well coordinated Participants exhibited relaxed but
serious attention to the topics Superior evening entertainment for such a
small conference

The dinner and museum were terrific Id rather not hear any more Data
Warehouse presentations until theres stuff up and running to actually use
